

STRATEGIC PLAN 2026

Together, We Strengthen the Future of Irrigation.

OUR VISION

To build a thriving Australian irrigation industry by empowering its people through knowledge, innovation and sustainable practice.

OUR PURPOSE

To be the centre of excellence for efficient irrigation practices across food and fibre production, leisure spaces and commercial environments.

EDUCATION AND TRAINING

- Accredited irrigation qualifications
- Micro-credentials and specialist courses
- On-demand learning programs
- Corporate training solutions
- Workforce development programs

PROFESSIONAL CERTIFICATION

- Irrigation designers
- Installers and technicians
- Certified practitioners
- Meter installers and compliance professionals

INDUSTRY MEMBERSHIP AND ENGAGEMENT

- Professional recognition
- Continuing professional development
- Industry events and networking
- Technical resources and standards
- Career development support

ADVOCACY AND STANDARDS LEADERSHIP

- Workforce capability development
- Industry self-regulation
- Standards and compliance frameworks
- Sustainable management outcomes
- National food and fibre security

Irrigation Australia is the national peak body and Registered Training Organisation (RTO) dedicated to advancing irrigation excellence across Australia. Supporting the people who design, install, manage and maintain irrigation systems across agriculture, horticulture, urban landscapes, parks, turf, and commercial infrastructure.

KEY STRATEGIC PRIORITIES
