

ICC Irrigation Conference 2024

Field Verified Natural Soil Regenerative AgriTech

Groundbreaking, Economical, Scalable, Rapid & Environmental

Food Security Solution

Right Here Right Now

What is Swift Grow

Twenty Two Years R&D

Recirculating Aquaculture System

Soil Microbiome Harvesting Process

Concentrated Liquid CFUs

Regenerative Soil Application

Rapid Plant Response

- Photosynthesis
- Water Retention EPS
- Crop Yield
- Food Quality
- Carbon Farming

Industry Partner Western Sydney University

Full Spectrum Healthy Soil Microbiome

Bacteria,
Algae,
Fungi,
Yeasts,
etc...

Comparative Tests

Consistent Global Field Trials Results
