MEET OUR 2025 EXHIBITORS

Amiad Water Systems is a world leader in water treatment and filtration solutions, and for 60 years has devoted its passion and commitment to developing a comprehensive line of water filtration systems for applications in the irrigation and industrial markets. Our products are integrated into the core of water filtration and treatment systems such as micro-irrigation, membrane protection, wastewater treatment, potable water treatment, cooling systems and seawater filtration and are built for efficiency and reliability, backed by our commitment to excellence and best customer service. With our screen, disc, microfiber and media technologies and broad range of automatic, semi-automatic and manual filters, we can effectively treat and filter water according to each customer's specific requirements.

We make water simple. BD Water seamlessly integrates water solutions across irrigation, bores, and licensing. We help farmers, developers, and commercial property owners secure sustainable water access with minimal hassle. Whether it's building efficient irrigation systems, drilling reliable bores, or handling complex licensing regulations, we deliver innovative, reliable solutions tailored to each client's needs.

Davey have been a leader in pump and water solutions since 1934 – both in Australia and across the world. For over 90 years, our customers have come to Depend on Davey every day, to provide perfect pressure, healthy drinking water, protection from fire and flood, relaxing pool or spas, or irrigation to run farms or businesses. Our products are used in some of the world's toughest conditions, which is why they are built with dependability and reliability at their core.

PREMIER SPONSOR

Wholly owned and operated in WA since 2006, APT Water supplies pumps, ancillary water products and turn-key solutions to the WA market. With a proud history of quality products and the highest level of customer support, APT Water is renowned for reliability, after sales and unmatched product knowledge. Brands we supply include; Lowara, Goulds, Filtersafe screen & Azud disc filtration and Permaglass bore casing and column. Our in-house design, fabrication and testing supports turn key packages and customer confidence in supply.

EVENT HOST

Government of Western Australia
Department of Water and Environmental Regulation

As the Department of Water and Environmental Regulation, we support Western Australia's community, economy and environment by managing and regulating the state's environment and water resources. We act to ensure our water resources meet the needs of the community, ecosystems and economic development. We are committed to tackling the impacts of climate change on our precious water resources and to collaborating with industry on water saving initiatives and to create climate-resilient waterwise communities.

Aquamonix is dedicated to minimising environmental impacts for growers, governments and corporates, while also improving industry productivity and community resources. We do this using our market leading hardware and technology platforms to engage directly with local customers and globally via our channel partner network. Through our end-to-end solutions, Aquamonix provides the hardware, monitoring, connectivity and smarts that enable effective water management and environmental stewardship. Our bespoke products are ideal for accurate water measurement, efficient irrigation, and the reduction of environmental harm. With a proven track record and strong focus on our customers in the irrigation, resources, and government sectors, we continue to invest in Australian innovation and technology.

LANYARD SPONSOR

Franklin Electric was established in Australia in 1962 to support the water industry. Franklin Electric offers an extensive range of water pumps, submersible electric motors, VSD, controls and protective devices. It has earned the reputation as a technical leader in all of its specialties, with products being used in residential, industrial, agricultural, mining, municipal, commercial and fueling applications. No matter the project, Franklin Electric has a solution to meet your requirements. MOVING WATER – MOVING FORWARD

MEET OUR 2025 EXHIBITORS

PREMIER SPONSOR

Grundfos Pumps Pty Ltd is part of a global network delivering pumping expertise and innovation in over 80 countries. Established in 1980, we serve the needs of Australia's mining, industry, agriculture, utilities, property and domestic sectors. We also provide Australians with rapid access to the latest pumping technologies and innovations, including ongoing improvements in performance, materials, special applications, power sources and operating efficiency. Tried and tested, Grundfos pumps deliver unequalled reliability and superior efficiency fulfilling all water needs, every time.

A valmont COMPANY

HR Products is an Australian company specializing in the design, manufacture, and distribution of irrigation and water management products. Established in 1979, the business caters for a diverse range of irrigation products and solutions for agricultural, commercial, and residential applications. With a strong focus on innovation and sustainability, HR Products partners with leading global brands and offers expert advice to optimise water efficiency and support environmentally responsible irrigation practices.

MACSPRED® is a leader in Forestry Vegetation, Industrial Vegetation and Aquatic Weeds Management. Manufacturing and distributing specialist herbicides in Australia since 1985, for use in non-agricultural areas. MACSPRED® introduced granular herbicides first to the industrial markets, and then to the state-owned and private forestry companies across Australia. Backed by a national team of herbicide specialists and now part of Syngenta Professional Solutions, MACSPRED® provides local know-how backed by global support. Delivering best practice results, and meeting customer needs. Visit MACSPRED® at booth #19 to explore their latest innovations, including Clipper® Aquatic Herbicide.

Nelson Australia leads the irrigation sector with innovative solutions that improve yields, water efficiency, and sustainability. In partnership with trusted brands like Nelson Irrigation, Hunter Industries, and FX Luminaire, we support growers, dealers, and the residential and commercial sectors. With a nationwide team of experts, we provide high-quality sprinklers, valves and controllers helping clients make smart irrigation investments backed by reliable support in tough conditions.

MAJOR SPONSOR

Hunter Industries' is committed to building high-quality irrigation products and backing them with outstanding service and support. Hunter Industries is a global manufacturer of smart, water-efficient irrigation products for residential, golf and commercial use.

KISTERS specialises in the gathering, processing and reporting of environmental data from all over the world, creating innovative and data driven solutions that harness the power of data and technology. Our mission is to empower customers with truly reliable data-driven insights and technology they can trust to help them make the decisions they need to keep life thriving.

NewGround

Established in 2018, today NewGround is supported by a group of passionate water management experts with over 100 years of experience delivering innovative and practical water and irrigation solutions to the Australian market. Backed by more than 100 years of combined experience and an in-depth knowledge of commercial irrigation installation best practices, our team of skilled, water-wise experts are committed to finding the right water management solutions for our clients. NewGround has evolved since its inception and now offers the following services to local communities and Councils, as well as commercial, agricultural, mining, and industrial water sectors: Design, Irrigation, Water engineering, Drainage, Turf Maintenance, Irrigation, Pump and Bore Maintenance, Facility management, Sports turf construction plus lots more.

MEET OUR 2025 EXHIBITORS

Pentair and its iconic Australian brands Onga & Southern Cross are highly respected and reputable brands that customers can trust. Providing a comprehensive range of end-suction, vertical multistage pumps as well as tanks, submersible motors, controllers and accessories. From irrigation, Farming, agricultural, domestic, firefighting, water transfer and submersible applications - Pentair has you covered. Our customers can rely on us for our expertise and sound advice as we remain committed to delivering the best solution combined with exceptional service.

Philmac

by **alixis**

Since its inception in 1929, Philmac has been a company synonymous with invention, quality and reliability. Pioneering the plastic compression fitting more than 60 years ago, it is humbling to know that Philmac continues to set the standard today. Philmac provides a broad range of water management solutions servicing agriculture, irrigation, civil, water authority and plumbing sectors. Philmac is the only range of poly compression fittings designed and made in Australia. Water is precious. Put your trust in a Philmac original.

PLASSON is a global leader in pipe connection solutions, with over 60 years of expertise. Serving sectors like agriculture, plumbing, and mining, they offer durable and reliable fittings suitable for a range of environments. Their Australian team provides excellent customer service and technical support, ensuring high-quality standards for every project. PLASSON's innovative products are trusted in both urban and rural applications, supporting infrastructure development and environmental sustainability.

Profitably providing defect-free, high value product and service solutions that promote the intelligent use of water for worldwide irrigation applications. Achieving customer satisfaction by being the customer's best choice today and in the future. Achieving customer satisfaction by meeting or exceeding customer expectations.

Reliance Worldwide Corporation (RWC) and its global family of brands, including SharkBite, Reliance Valves and John Guest, provide a comprehensive range of plumbing solutions. Recently, Holman has joined the RWC family, adding their expertise in outdoor watering and PVC products to the extensive range of products offered by RWC. Together, RWC offer innovative solutions to efficiently manage water both into and out of the home.

Reefe Pumps Australia is the main brand of Ascento Group Australia, an Australia-owned and operated company supplying pumps, pump stations, controls and water conservation solutions. The business started in 1976 and has serviced the pump industry since 2007. Our national head office is in Lytton, QLD, with six other offices/warehouse in Australia, giving national coverage to all our distributors. We are optimistic about the future and are moving forward with confidence and strength, growing our business through 'quality service' and respect for customers and our suppliers – BETTER, FASTER, EASIER.

RGD

RGD Corporation is a Western Australian based global business specialising in the manufacture, importation and distribution of high quality irrigation & agricultural products to the rural, irrigation, marine, industrial and mining industries. With one of the most diverse product ranges in the industry and exceptional delivery times, RGD is the best choice when placing your next order.

SIGNAL™

Signal specialises in Australian-engineered irrigation control systems for councils, schools, growers, and commercial landscapes. Integrated with the SignalCloud platform, the technology provides real-time remote access via any mobile device. With features like data monitoring, scheduling, and fault detection, Signal ensures precise and efficient water management. Designed for reliability and scalability, Signal's solutions simplify operations, conserve resources, and empower users to manage irrigation networks with ease. Proudly designed in Australia, Signal is the trusted choice for user-friendly, waterwise irrigation management.

MEET OUR 2025 EXHIBITORS

SWAN Systems is a cutting-edge water accounting and visualization platform designed to optimize irrigation management. As the industry's premier comprehensive software suite for water management, SWAN provides decision support by integrating key business and agronomic touchpoints. Unlike solutions that focus on single points of measurement, SWAN offers a holistic approach, ensuring irrigation practices are aligned with business goals to achieve optimal outcomes. With advanced insights and seamless integration, SWAN transforms water management into a streamlined, data-driven process.

Toro Australia is a manufacturer and supplier of advanced irrigation products and turf care machinery. Toro helps customers care for commercial and residential properties, sports fields, public green spaces and golf courses. Toro values the trust customers place in their people and products, and has a genuine desire to help customers solve their most important challenges in a sustainable way. Toro's irrigation product range consists of sprinklers, (central) control systems, valves, sensors and fittings. Toro products are available from a national dealer network.

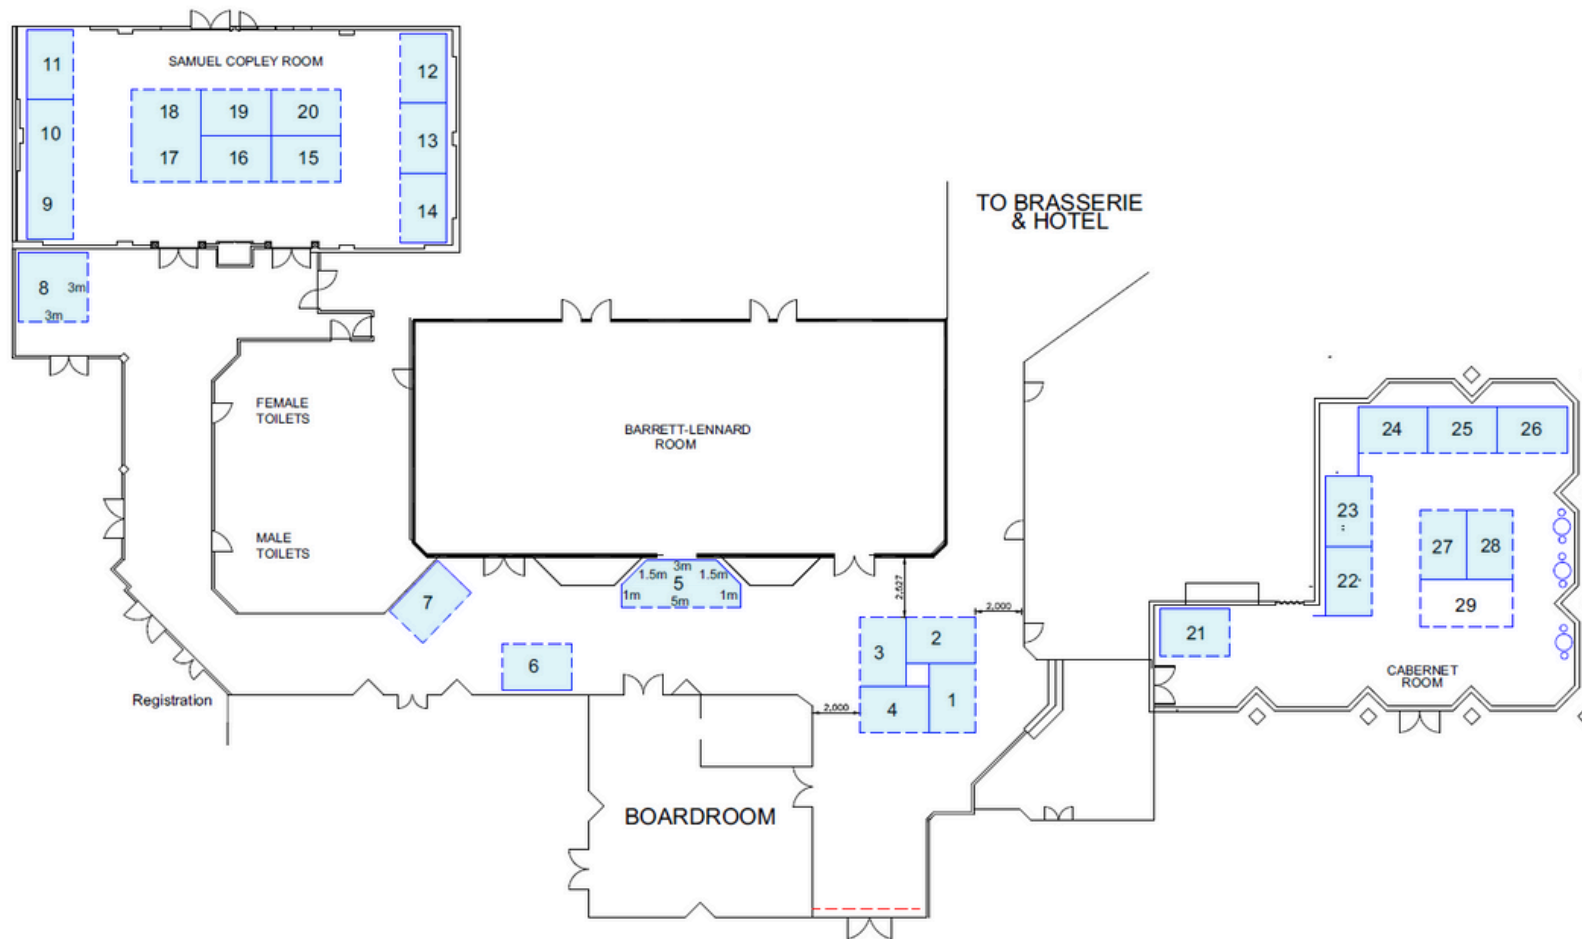

Vinidex is a leader in Australian manufacturing and supply of advanced pipe systems and solutions. We are a proud Australian manufacturer, with a strong history of over 60 years in Australia with proven long-term performance and reliability. Vinidex is backed by the strength of Aliaxis, a global leader in plastic piping solutions, with around 16,000 people worldwide. This allows us to connect our customers with innovative technologies from around the world.

Water Corporation provides water, wastewater and drainage services across WA. We work closely with irrigation specialists and manufacturers through a variety of programs to support the industry and state to stay Waterwise.
