

# ELECTROFUSION & BUTT WELDING

## COURSE OVERVIEW

The Electrofusion and Butt Welding short course covers the skills and knowledge required to weld polyethylene (PE) plastic pipes using electrofusion. It applies to welding of pipes and pipelines undertaken in the field and in factory conditions. Pipelines may be for transmission of water, gas or other liquids.

Irrigation Australia will deliver this training in support of using product and equipment provided by Vinidex. This Partnership combines Vinidex's industry knowledge and experience with Irrigation Australia's ability to deliver high quality nationally accredited qualifications and courses.

## CORE UNITS

PMBWELD301E - Join polyethylene plastic pipelines using butt welding

PMBWELD302E - Join polyethylene plastic pipelines using electrofusion welding

## DELIVERY STRUCTURE

2 days Face-to-Face

8:30 am - 4:30 pm

## COURSE FEES

	Company Member	Individual Member	Non-Member
Full Course	\$1,400	\$1,540	\$1,694
