

# IRRIGATION SYSTEMS EFFICIENCY

## COURSE OVERVIEW

The Irrigation Systems Efficiency course is designed to equip candidates with the knowledge and practical skills necessary to become Irrigation Efficiency professionals. Through this accredited short course, participants will gain an understanding of how to interpret irrigation designs, operate, measure and maintain irrigation systems to maximise water efficiency.

It will also introduce concepts and knowledge around Plant water requirements and understanding soil types, with a strong emphasis on hands-on learning, requiring candidates to apply the concepts and techniques they learn directly within their own workplace environment.

This short course delivers three accredited units and can be used as a pathway into the Certificate III in Irrigation Technology AHC32422.

## CORE UNITS

AHCIRG337 - Measure irrigation delivery system performance

AHCIRG338 - Troubleshoot irrigation systems

AHCIRG346 - Operate pressurised irrigation systems

## UPCOMING INTAKES

We have several courses coming up throughout Australia for the 2024/2025 financial year.

For a current list of intakes open for enrolment, scan the QR code.
